Call for papers for MNS 2017 Special Issue in Journal of Neuroscience Methods

Dear MNS members:

We are very happy to inform you that **Journal of Neuroscience Methods** will dedicate a Special Issue to our latest MNS 2017 Meeting in Malta, that will be edited by **Liana Fattore, Marc Landry** and **Giuseppe Di Giovanni**.

The Journal of Neuroscience Methods publishes research papers that describe new methods that are specifically for neuroscience research conducted in invertebrates, vertebrates or in man.

We will publish the Special Issue in early 2018 consisting of a cross-section of papers presented and discussed at the MNS 2017 Meeting in Malta as research/review manuscripts. On account of your solid academic background in these fields, we would like to invite you to submit a review or an original article to this Special Issue by the end of December 2017. Please submit your paper at: <https://ees.elsevier.com/jneumeth/>

If you have any enquiries, please feel free to contact giuseppe.digiovanni@um.edu.mt

We look forward to your submission and wish you every success in your research work.

Best regards,

Liana Fattore, Marc Landry and Giuseppe Di Giovanni
